

Code of Business Conduct - Values and Behaviours

Code of Conduct, Values & Behaviours:

Doing things right is one of our most important values at Strix. We work hard every day to provide products that enhance the lives of people in our communities, the countries that we operate in, and across the world.

We are clear about what we mean when we talk about doing things right. Not only does it mean that we provide products that are well made, fairly priced and of exceptional quality, but it also means that every step we take in making those products is taken with ethics and integrity in mind. We source material only from suppliers who have impeccable human rights records, ensure our supply chain is of high integrity and monitor our entire operation for compliance with our code of conduct.

Doing things right is part of the culture at Strix. Working here means making a commitment to uphold our company values and following the code of conduct outlined in this document. Thank you for upholding our values and helping us to be the best product innovator and supplier we can be.

Our Mission

Shaping a safer, more sustainable future in the design and supply of innovative products that enhance customers' everyday lives. We do this by working smart every day to make the world's best quality and safest products for heating, cooling and filtering water.
