

ISO14001: 2015 Environmental

Environmental Policy

The Officers & Directors of Strix are committed to conducting business with due regard for the environment. It is the policy of Strix to conduct its business in a manner that is environmentally responsible and comply with ISO14001:2015 Environmental Management Systems requirements. In accordance with this policy, Strix manages its business in a manner that minimises the impact of all its products and operations on the environment.

To further this policy, Strix:

- Will include environmental requirements in planning and design activities;
- Will endeavour to minimise the environmental impact of its products and processes at the operation stage and encourage suppliers to pursue best environmental practice through procurement processes;
- Ensure compliance with all applicable environmental legislation and other requirements;
- Carry out regular impact assessments of its activities and products on the local & global environments;
- Eliminate, or reduces to the maximum practical extent, the release of contaminants into the environment;
- Periodically reviews and demonstrates continuous improvement in the company's Environmental Management System.
- Communicates with stakeholders, regarding the environmental impact of company operations and can provide the Environmental policy to interested parties upon request.
