Agenda
Interim results & outlook

• Another solid performance with full year profitability remaining flat in line with previous guidance

• New factory progressing well in Guangzhou, remaining on budget and on target to be fully operational by August 2021

• 14 new products ready to be launched by the end of 2020

• New ERP system (SAP) implemented in September to increase efficiency and data analysis

• Refinancing of existing revolving credit facility, increasing headroom to £23.1m, negotiated with favourable rates in line with our previous facility

• The Board remains committed to delivering a full year dividend of 7.7p in line with 2019

Acquisition of LAICA S.p.A

• LAICA S.p.A, an Italian company focussed on water purification and the sale of small household appliances for personal health and wellness

• Considerably augment Strix’s position within the water market, providing a global platform to facilitate future organic and inorganic growth

• Expected to complete no later than December 2020 following consent from the council of Ministers in Italy.
Managing through the pandemic

Strix’s Community Support

- Direct Sourcing of PPE
  Approached by local Government to assist with PPE purchases, including quality certification and rapid delivery

- Design and Prototype Services
  Designed and developed prototype valves for specialized breathing equipment

- Mask Certification & Testing
  Verification of local stocks of PPE for NHS staff on the Isle of Man. Resulting in efficient release of masks to key workers on island.

- Visor Assembly Community Project
  Production/assembly facility set up to target local PPE shortages for Key Workers on the Isle of Man

300 hrs Direct support projects
700 hrs Spent protecting OUR workforce globally

SECOND WAVE – SCENARIO PLANNING

**EMPLOYEE FOCUS**
- Continue focus on employee mental and physical well-being
- Implement effective long-term measures for social distancing and sanitization
- Maintain our remote working capabilities to ensure minimisation of downtime from potential future lockdowns

**BUSINESS FOCUS**
- Prudent management of Group cash reserves, our liquidity pool at H1 2020 reaching £23.1m
- Reinforce appropriate efficiency initiatives throughout the business
- Maintain focus on organic and inorganic growth of revenue streams through new product development and strategic acquisitions
- Commodity prices secured in advance for key materials including silver, copper and hybrid plastics
- Diligently manage stock levels to mitigate impact of future downtime imposed by lockdown periods
- Continue to implement initiatives to protect health and wellness of employees globally as situation dictates

### Commentary

**Revenue: £9.2m decrease**  
H1 sales down by 21% due to COVID-19 disruptions, in line with scenario planning.

**Adjusted gross profit¹: £2.9m decrease**  
Lower throughput resulting in reduced material and labour costs.

**Adjusted operating profit¹: £1.5m decrease**  
Lower distribution and admin costs in H1 including travel and reductions in monthly salary costs linked to bonus accruals and headcount.

**Adjusted EBITDA¹: £1.3m decrease**  
Lower tax charges and cost efficiency measures implemented in H1.

---

¹ Adjusted results exclude exceptional items, which include share-based payment transactions, reorganization and strategic project costs. Adjusted results are non-GAAP metrics used by management and are not an IFRS disclosure.

² Figures are calculated from the full numbers as presented in the consolidated half-year financial statements.

³ Exceptional consists of £1.1m of share based payment costs and £1.5m of strategic project and reorganization costs.
Half Year Cash Flow

OCF is defined as: ‘Cash generated from operating activities’ less ‘Net cash used in investing activities’
## Net Debt Inclusive of Laica Acquisition

### Net Debt\(^1\) £m

<table>

Status Milestones

- May 2019: Land purchase complete
- June 2019: Design completed
- September 2019: Construction permit application complete
- January 2021: Construction complete. Property ownership certificate granted
- March – May 2021: Press machinery fitted & test lab facilities completed
- March – July 2021: Stock movement, assembly line and moulding machinery fitting
- March – June 2021: CC & AO product approval
- May – Jul 2021: ISO approval
- August 2021: Project completion
Investment Proposition

The stability of the Strix business model allows us to continue to invest to realise full growth potential

1. Operating Capital Expenditure
   - Operating capital expenditure of £7m in H1 2020 demonstrates Strix’s continued investment in its manufacturing and development assets to support our strategic growth objectives
   - Construction of new factory in China remains on budget and on schedule to complete all construction work by the end of January 2021 and to be fully operational by August 2021
   - New factory will significantly increase facility capacity and support the Group’s growth aspirations

2. Strategic Value Accretive Acquisition
   - Acquisition of LAICA S.p.A for a total consideration of up to €31.6 million significantly enhances Strix’s position in the Water market and provides a number of strategic benefits:
     - Extensive IP and patent portfolio alongside NPD pipeline provides multi year organic growth
     - Further growth opportunities from complementary product and geographic footprint
     - Strong value creation potential and immediately earnings enhancing

3. Progressive Dividend Policy
   - Given H1 2020 performance, a record Q3 order book and the Board’s confidence in the continued strength of cash generation, an interim dividend of 2.6p (H1 2019: 2.6p) per share has been declared
   - Commitment to delivering a full year dividend of 7.7p in line with 2019 demonstrating the confidence in the future outlook and that profitability remains in line with full year market expectations

4. Conservative Balance Sheet
   - Robust balance sheet with net debt of £36.9m in line with expectations following additional drawdown
   - Net debt to EBITDA ratio remains comfortably below covenant levels at 1.1x
   - Completed the successful refinancing of the Group’s debt facilities in May 2020 providing a £60m revolving credit facility with improved financial flexibility that provides significant additional headroom to the Group for the medium term

  - 74%

- **LESS REGULATED**
  - 37%

- **Improved quality and efficiency through automation**
- **NB: All percentages above are market value share disclosures.**
- **Investor Presentation - Interim Results**

- **Maintained stable market value share**
- **Continue to support Brands, Retailers and OEM’s providing value added services throughout the value chain**
- **Record order book for Q3 +26% versus Q3 19**
- **Forecasted sales for Q3 £24.1m**
- **Positive sales growth in China retail market for electronic kettles following IP initiatives**
- **Growth specifications in European Glass Kettle segment**
- **Further range expansion for the U9 control series with 7m controls sold to date**
- **Range expansion for the electronic control series**
Kettle Control Business: Roadmap

**2020**
- Full roll-out of StrixVQ and U9 series enhancements.
- Extend UHS product line: custom solutions to reduce OEM system costs.
- Next Gen EK control for glass appliances.
- High Power Control for NAM & Japan Markets (faster speed to boil).

**2021 & beyond**
- Extend StrixVQ brand with split switch solution to expand addressable market.
- Next Gen of StrixVQ controls for China and Less-Regulated markets.
- Next generation control & element. Other initiatives include scale management, “on the go” applications and other consumer features.

**2020 Product Launches**
Water Category

Quarterly Revenue Trends £m

- **£5.3m** H1 sales
- **28%** Q3 forecasted sales growth
- **6** Product launches

### Key Performance Indicators:
- Water category exhibited solid performance in Q1
- Lumi Chiller sales +1200% increase from 2019
- Investment in category management to increase focus on consumer needs
- Strong order book for Q3 +28% from Q3 19
- Forecasted sales for Q3 £3.0m
- Secured incremental revenue with key South American customers
- Engaged 2 new Chinese distributors
- Secured additional contracts with key partners in China and USA
- 1st Poultry water filtration system implemented at customer location

### Regional Sales:
- **Europe**: £0.3B
- **China**: £1B
- **North America**: £1.2B
- **Latin America**: £0.5B

### Features:
- Improved water quality and sterilisation functions
- Reducions in use of plastics - combating single-use plastics (filters 100% recyclable)

**Historic Focus**
- UK Market Size: £150M
- £3B opportunity in key target markets
Water Category: Roadmap

Our ambition in the water category is to deliver point-of-use drinking water solutions that give consumers the power to take control of their water, and reduce their consumption of single use plastics.

2020
Launch Aurora water station, Evolve+ Multi-Fit Filters, 2nd generation astrea ONE bottle and more.

2021 & beyond
Next generation filters to address consumer needs in key markets.
Expanded range of filtration Jugs including new plastic designs, and glass carafes.
Continued innovation to expand the range of POU filters to drive key AO business, and support global expansion of SDA filters.

2020 Product Launches

Above images are not representative of final products
**SDA Category**

**Quarterly Revenue Trends £m**

- **Q1**: 0.2
- **Q2**: 0.3
- **Q3**: 0.4

**0.5m** H1 sales

- Ongoing strong demand in baby care products
- Increased consumer demand for water stations

94% Q3 forecasted sales growth

- Strong order book for Q3 +94% from Q3 19
- Forecasted sales for Q3 £0.4m

**4 Product launches**

- Expansion of category to now encompass Garment Care
- Build on success of Lumi Chiller, with launch of Aurora beverage station in Q4

Product range
- **Water Category**: Pitcher water filters, filter replacements, water dispensers, bottle filters and filters for coffee machines
- **SDA Category**: Personal care, vacuum sealers and kitchen appliances
## Transaction Overview

| Consideration          | • Initial consideration of €19.6 million (6.8x FY19 Adj. EBITDA) and €31.6m including earnout (10.9x FY19 Adj. EBITDA)  
|                       |   • Initial consideration funded €11.6 million in cash by extending current banking facilities and €8.0 million in Strix ordinary shares  
|                       |   • Up to a further €12.0 million payable in cash subject to certain conditions being met, including threshold financial targets for FY21 and FY22 |
| Financing             | • Initial cash consideration supported through increased banking facilities with NatWest, Bank of China and Bank of Ireland |
| Earnings enhancing    | • Expected to be up to mid-single digit earnings enhancing in first full year, in advance of anticipated synergy benefits |
| Net debt              | • Net debt to Adj. EBITDA is expected to be c.1.4x on completion reducing to c.1.2x by 31 December 2021 |
| Lock-in               | • Shares issued to part fund initial consideration subject to a lock-up period of six months from the date of completion |
| Completion mechanism  | • Completion subject to approval from the Council of Ministers in Italy, anticipated no later than December 2020 |
| Management retention  | • Previous owner and CEO for 28 years, Maurizio Moretto, remains with the business until March 2023 |
**Transaction Rationale**

1. **Strengthens Strix’s market position** within the Water category, providing a global platform to facilitate future growth.

2. **Earnings enhancing**, in advance of synergy benefits, with leverage on completion expected to be c.1.4x net debt to Adj. EBITDA.

3. **Complementary product and geographic offerings**, capitalising on Strix’s global footprint and LAICA’s in depth product expertise.

4. **Organic growth** from bringing new products to market, internationalisation of LAICA’s revenue mix, cross-selling and up-selling.

5. **Experienced sector specialist management team** incentivised through performance targets in FY21 and FY22.

6. **In line with M&A and ESG strategy**, supporting Strix’s medium term targets and enhances the Group’s long-term growth potential.

## Synergies

### Revenue synergies

| Cross-selling | • Expansion of LAICA’s revenue mix using Strix’s global marketing and sales network  
|               | • Cross-selling and up-selling of Aqua Optima and LAICA’s established product range and NPD roadmap |

### Cost synergies

| Marketing     | • Consolidation of marketing expertise significantly expanding capability and market reach |
| Operational efficiencies | • Leverage existing expertise in automation, supply chain management and in-sourcing of specialist processes to maximise efficiency and reduce costs with the expanded production capability |
| R&D           | • Experienced R&D team will focus on cost reductions for existing products as well as combining technologies to increase differentiation of products across all markets |
| General       | • Optimising functions and processes whilst leveraging on know-how and additional resources |
